## Pet Patrol

The last few weeks it has been colder than normal for this time of the year. Please make sure that your human caregivers keep you nice, warm and comfy.

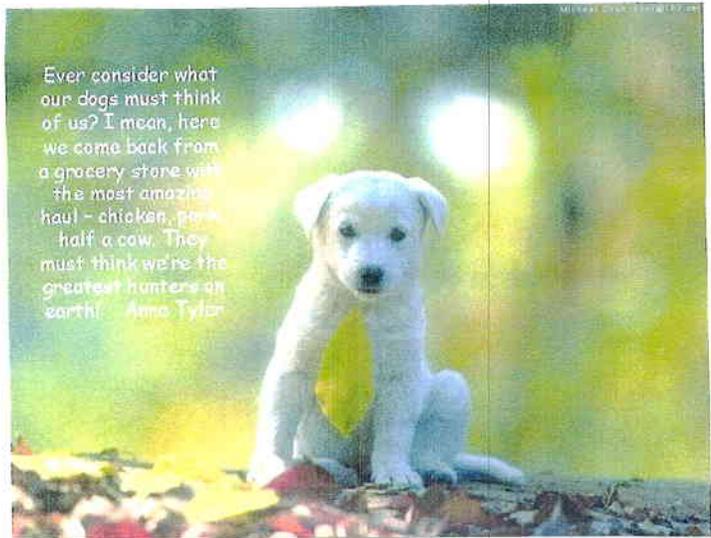

Speaking of warm, don't forget to have your coolers shut down for the winter. That includes turning off the water and draining the water lines so they don't freeze and leak later on. Also

have your heater serviced to give you optimum heat and it will work safely.

Please enjoy this cute picture -

## For Safety's Sake

### Vehicle Theft is Highway Robbery

Don't think for a minute that your vehicle cannot be stolen. The truth is that no car, truck or motorcycle is theft-proof. A professional thief can steal virtually any car anytime and anywhere. So how do you guard against the danger of theft?

There are basically three reasons why vehicles are stolen: 1) for "Joy Riding," 2) for "Chop Shops" and 3) for export abroad. Each of these categories is about the same size. Together, they represent more than 1.3 million vehicles stolen each year.

While you are otherwise preoccupied, a thief can take your car to use it, strip it or ship it. You will be left with a car that has been driven, damaged (a little or a lot) and abandoned by someone you don't know, a skeleton of what used to be a car you treasured or the memory of a lovely car.

Vehicle theft is a "crime of opportunity." With hundreds of millions of vehicles to choose from, thieves usually opt for the "easiest car to steal" in the area. For a thief, the easiest car to steal is one that suits the thief's purposes, one that can be entered and started quickly and one that can be moved from place to place undetected.

The most straightforward approach to vehicle theft prevention is the "Layered Approach." This strategy consists of "Layers" of theft prevention, including Common Sense, Warning Devices, Immobilization Devices and Tracking Devices.

### Everyone Pays for Insurance Fraud

Law Enforcement and Insurance Investigators cannot keep up with the rising vehicle theft epidemic. Members of the community can get involved and watch out for suspicious activity, abandoned cars and automobile parts sold below market value. Any type of Criminal behavior that involves a specific car with identifying marks should be called into the WeTip Crime Hotline.

As long as there has been insurance...there has been insurance fraud! Staged vehicle collisions and vehicle thefts are a major contributor to the \$20 billion property-casualty insurance fraud problem. Insurance fraud related arson fires are on the rise and fraudulent workers compensation claims have skyrocketed. The

insurance industry is bearing the burden of millions of dollars in losses due to fraud. Working together in support of trained law enforcement officers, citizens have used the WeTip system to launch a concerted attack against crime in their communities. The concept is a simple one; WeTip provides an anonymous, toll-free crime hotline to citizens who have information about a crime and want to report it to the authorities without having to reveal their identity in any way.

### Anonymity is Our Business

The fundamental basis for WeTip is anonymity. Caller safety and absolute anonymity are essential to the success of the WeTip Hotline.

One the first phone contact, the caller is instructed to never give their name or identify themselves in any way. The caller is then asked a series of questions designed by law enforcement officers to obtain the maximum amount of information about a crime or violation.

The caller is given a case number and a code name. Upon arrest and conviction of the suspect, the caller will use the code name to anonymously collect a reward at a designated postal location. A reward of up to \$1,000 is available upon arrest and conviction of the suspect. The caller's anonymity is always secure.

The speed limit in the park is **15** miles per hour. Those of you that are speeding on the East side of Date St. - STOP IT! Please stop at all stop signs and corners that don't have stop signs. You don't want to run into one of your neighbors or their pets with your car!

Please make sure you close the dumpster lids when you throw your trash away! You will be helping to keep the feral cats from looking for food, keeping bugs away and making the area look more presentable.

### Attention Seniors (age 60+)

Did you know? You could have a nutritious meal for a donation of only \$3.00? All meals include a main dish, vegetable, drink and dessert.

Where?

At the Barstow Senior Citizen's Center located at 555 Melissa Ave. Our lunch service time is from 11:30AM until 12:30PM. Our phone number is 1-760-256-5023.

This meal is provided through a grant from the Department of Aging and Adult Services of San Bernardino County. All donations are to help offset the cost of staff, utilities and the care of the equipment. Without your donation, the program would stop. You can bring a friend but if they are under 60 years of age: their donation will cost \$5.00. (This is still a great meal deal!)

We also provide meals to homebound seniors!

For more information, call 1-760-256-9111.

Thank you,  
Jeff Eason

We are doing our best to keep the park safe but we need your help, if you see someone acting suspiciously or anything suspicious, PLEASE call the Barstow Police Dept. at 1-760-256-2211. You can request that the responding officer not show up at your door. If the officer needs to talk to you, they can call you on the phone. With all of us working together, we can help minimize these types of problems.

**The cameras in the park are monitored daily.** We do see vehicles that go through stop signs without stopping and vehicles speeding on the streets not only by the cameras but also by direct observation. Be aware of the speed limit - 15 mph. It might not be such a bad idea to stop at all corners (even the ones that don't have stop signs) so there won't be any type of accident.

**From Park Rules and Regulations, revised 6/1/06**

**Drug Problems**

*Submitted By: Mike Savage, Lee Vining, CA.*

I had a drug problem when I was young. I was drug to church on Sunday. I was drug to church for weddings and funerals. I was drug to family reunions no matter the weather. I was drug to the bus stop to go to school every weekday. I was drug by my ears when disrespectful to adults and teachers. I was also drug to the woodshed when I disobeyed my parents.

Those drugs are still in my veins; and they affect my behavior in everything I do, say and think. They are stronger than cocaine, crack or heroin, and if today's children had this kind of drug problem, America would most certainly be a better place to live.

### 'Twas the Night of Thanksgiving

'Twas the Night of Thanksgiving, But I just couldn't sleep  
I tried counting backwards, I tried counting sheep.  
The leftovers beckoned - The dark meat and white  
But I fought the temptation with all of my might.  
Tossing and turning with anticipation  
The thought of a snack became infatuation.  
So, I raced to the kitchen, flung open the door  
And gazed at the fridge, full of goodies galore.  
I gobbled up turkey and buttered potatoes,  
Pickles and carrots, beans and tomatoes.  
I felt myself swelling so plump and so round,  
'Til all of a sudden, I rose off the ground.  
I crashed through the ceiling, floating into the sky  
With a mouthful of pudding and a handful of pie.  
But I managed to yell as I soared passed the trees..  
Happy eating to all - Pass the cranberries, please.

## Just A Simple Soldier

He was getting old and paunchy and his hair was falling fast,  
And he sat around the Legion telling stories of the past.

Of a war that he once fought in and the deeds that he had done  
In his exploits with his buddies, they were heroes, everyone.

And 'tho sometimes, to his neighbors, his tales became a joke,  
All his buddies listened quietly for they knew whereof he spoke.

But we'll hear his tales no longer, for old Bob has passed away,  
And the world's a little poorer for a Soldier died today.

When politicians leave this earth, their bodies lie in state,  
While thousands note their passing and proclaim that they were great.

Papers tell of their life stories from the time that they were young  
But the passing of a Soldier, goes unnoticed and unsung.

Is the greatest contribution, to the welfare of our land,  
Some jerk that breaks his promise and cons his fellow man?

Or the ordinary fellow, who in times of war and strife,  
Goes off to serve his country and offers up his life?

The politician's stipend and the style in which he lives,  
Are often disproportionate to the service that he gives.

While the ordinary Soldier who offered up his all,  
Is paid off with a medal and perhaps a pension, small.

It's so easy to forget them for it is so long ago,  
That our Bobs and Jims and Johnnys went to battle, but we know,

It was not the politicians, with their compromise and ploys,  
Who won for us the freedom that our county now enjoys.

Should you find yourself in danger, with your enemies at hand,  
Would you really want some cop-out, with his ever-waffling stand?

Or would you want a Soldier, who has sworn to defend,  
His home, his kin and country and would fight until the end?

He was just a common Soldier and his ranks are growing thin,  
But his presence should remind us, we may need his like again.

For when countries are in conflict, then we find the Soldier's part  
Is to clean up all the troubles that the politicians start.

If we cannot do him honor, while he's here to hear the praise  
Than at least let's give him homage at the ending of his days.

Perhaps a simple headline in the papers that might say  
"OUR COUNTRY IS IN MOURNING FOR A SOLDIER DIED TODAY"

## NOTICE OF PUBLIC AWARENESS

This notice is to inform the residents of Holiday Homes Mobile Home Park of the hazards associated with the natural gas pipeline system located within the park and how to respond if a gas leak is detected. Please read the contents carefully. Our goal is to ensure that natural gas is provided to the residents for their personal use in a safe and reliable manner.

### **Purpose of the Gas Pipeline System**

The natural gas pipeline system in Holiday Homes is owned, operated and maintained by the owners of the park. The pipeline system is designed to distribute gas to the residents, which is commonly used for warming homes, heating water (i.e. hot water heaters), cooking, the laundry room and the pool heater.

### **Reliability of the Gas Pipeline**

The gas pipeline system is operated and maintained by qualified individuals in accordance with the park's Operations and Maintenance Plan, which contains procedures for safely operating, maintaining and monitoring the system. The California Public Utilities Commission inspects the gas pipeline system for compliance with the Federal rules and regulations.

### **Hazards Associated with the Gas Pipeline**

Gas can leak from pipeline facilities damaged due to corrosion, outside force, natural events or equipment failure, etc. Because natural gas is a flammable commodity, gas leaks, under certain circumstances, have the potential to cause harm.

### **Preventive Measures Used for the Gas Pipeline**

The gas system is leak surveyed annually. All hazardous leaks are repaired. All main valves are inspected to ensure that they are operable. The gas system is patrolled on a routine basis to ensure that hazardous conditions such as atmospheric corrosion, improper care of discontinued services and customer lines, inadequate support of meters and pipeline components, etc., are noted and corrected. The park has a cathodic protection system that protects the pipeline from corroding and that the system is monitored on a routine basis to ensure its effectiveness.

### **How the Gas Pipeline Can Be Damaged**

The gas pipeline is susceptible to damage to outside forces such as those caused by excavation, vehicular traffic or excessive loads placed on meter set assemblies. In addition, restricted access to main valves and meter set assemblies could result in severe consequences in the event of an emergency.

The greatest risk to underground gas pipelines is damage caused during excavation. Even a minor impact with the pipeline could cause a dent or damage to its coating, resulting in a leak. **Notify the park owner/manager before you dig.** Do not park vehicles near gas meters or pipelines that are not protected by barriers. Do not remove meter supports or place heavy items on top of meter set assemblies. Do not restrict access to main valves or meter set assemblies. Please inform park owner/manager of gas meters that are vulnerable to vehicular damage or need supports and any other potential hazards you may notice.

### **Ways to recognize gas leaks**

Odor: Natural gas is colorless, odorless, tasteless and non-toxic. An additive (Mercaptan) in the gas gives it a distinctive odor (similar to rotting eggs or sulfur).

Vegetation: Natural gas leaking from an underground pipeline can destroy vegetation by starving the roots of air and water. An unusual dry patch of vegetation, within an otherwise green area, could indicate a below ground gas leak.

Sound: A blowing or hissing sound could indicate the presence of a gas leak.

**Bubbling Water:** Gas leaks on underground pipelines in flooded areas may cause bubbles in the water as the gas rises to the surface.

**Fungus-like Growth:** Gas leaks in valve boxes, manholes, etc., may develop a fungus-like growth that is generally white in color.

### **How to Respond to a Gas Leak**

Do not light items such as matches or cigarettes, or use any device that may generate a spark such as electrical switches, telephones (cell and land line phones), doorbells, automobiles or other engines, etc. Extinguish all flames, evacuate the building to a safe distance and turn off gas if feasible. To report a gas leak, call 252-3511 and inform park personnel of the situation and the location of the leak. Do not make the phone call from the area where the gas leak is present.

Example: You smell gas by your back steps! There could be several reasons for the odor, so first you would call the office. Trained personnel will come to your home at once and do several tests to determine the source of the odor. If it were a leak at or around the meter, they would attempt to repair it. If it were a leak in your home, they would inform you of the source and turn off the gas to that appliance. If it were a more serious problem they would make arrangements with contractors, etc.

## **Other Park Utility Information**

### **Utility Responsibility**

Did you know there are three owners for each utility line in the park? First is the Utility Company, which is responsible for quality, volume and supply of the utility to the Master Meters in our park. Second, Park Management and Owners are responsible between the Master Meter and your Space Meter. We are responsible for most of the gas pipes in the street that goes to your individual meter. Third, you are responsible from the Space Meter to your appliances, outlets, etc. This would make you responsible for your stove, home heater and hot water heater. It also includes the gas lines pipes from your appliances to the meter.

### **Electric Problem**

The electricity goes off in your house! First determine if this is a community problem (like a brown out or black out). Turn off all appliances especially the air conditioner or swamp cooler. Do not open your refrigerator or freezer anymore than necessary. When the power comes back on, turn on each appliance, at intervals of 2 minutes apart so that the main power source will not be overloaded. If your appliances do not all come on call the office, 252-3511. If the office is closed, ask for the manager and someone will be sent to your home as soon as possible.

### **Water/Sewer Problem**

You have a water or sewer leak at your house! Call the office or tell the answering service what the problem is and have them call a manager to come evaluate the problem. Trained personnel will come to your home to determine what the problem may be. If it is a park problem, it will be taken care of as quickly as possible. If it is a problem with your home plumbing, they will inform you as to the best way of taking care of the situation.

### **Telephone or Cable TV/Satellite Service Problem**

Holiday Homes Mobile Home Park is not responsible for your telephone, cable or satellite service. If you have problems with these particular items, please call the company involved with your service.

For additional information, contact the owner/manager of the park. Also, visit the websites of the U.S. Department of Transportation, Pipeline and Hazardous Materials Safety Administration (<http://www.phmsa.dot.gov>) or the California Public Utilities commission (<http://www.cpuc.ca.gov/puc/>).

If you have any questions, please call the office, 252-3511.
