

News & Notes

New Residents

Jerry & Loyce Lindenman are moving into sp. 137. They are moving here from town.

Welcome to our new residents! Let's be sure to get to know our new neighbors and invite them to all the activities around the park!

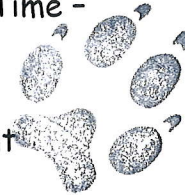

Pet Patrol

I'm not feeling too well today. Doctor told me yesterday that I have pneumonia. So this is going to be a little short. Please remind your human caregivers not to give you too many goodies from the Thanksgiving table. Some of that food is not good for us. I hope that everyone is enjoying our new Bark Park.

Till Next Time -

Peanut

For Safety's Sake

Planning ahead, rehearsing, thinking and acting clearly are keys to surviving a fire. How prepared are you?

Recommendations:

Establish advanced family planning for escape. It is an important partner with smoke detectors and it will prepare you for a fire emergency.

Your life and that of your family can be saved by foresight, planning, discussing and rehearsal.

Take Protective Measures

Before an Earthquake

The following are things you can do to protect yourself, your family and your property in the event of an earthquake:

Repair defective electrical wiring, leaky gas lines and inflexible utility connections. Get appropriate professional help. Do not work on gas or electrical lines yourself.
