

July 2015

I deeply apologize for not having a full newsletter for you this month. After returning from vacation, I was called in for jury duty and was put on a panel. I will only be in the office on Fridays until the trial is over.

We hope to see everyone at the 4th of July barbecue on Saturday, July 4th. Please bring your place settings and your neighbors!

The Mini Health Fair is Thursday, July 9th from 10-11AM in the clubhouse. You can have your blood pressure taken and/or your blood sugar tested. Maybe you can even have your dog's nails trimmed or talk to the veterinarian about any pet concerns. You never know who will be here to give you information on various programs specifically for seniors.

The Emergency Team meeting scheduled for the 13th has been cancelled. The next Emergency Team meeting is Monday, September 14th in the clubhouse from 1-2PM.

Please do not do any outside watering except on Tuesdays and Saturdays between the hours of 7PM to 8AM the following morning. This is stage 1 of the water companies plan to reduce water consumption. We are asked to lower our water consumption by 24%.

Water exercise is every Monday, Wednesday and Friday from 4:30-5:30PM in the pool. The classes are free. These classes are low impact exercises to keep everyone limber and feeling as good as you can. Please remember to wear proper swimming attire in the pool at all times.

Ryan Riegel and the Marketing Team are revamping the web page for Holiday Homes. They are hoping to have the redesign up and running by July 4th. If you get a chance, please take a look at it and let us know what you think. We also have a Facebook page and a Yelp page. Please check out those pages and like and/or share them. Thank you to Ryan and the Marketing Team for their hard work.

I don't know if you noticed or not but we are putting in a 'Bark Park' for your dogs. It is in the area we formerly called 'Poop Alley'. We will have a fenced off area where you will be allowed to let your dog run free. There will be a few toys in there for them to sniff, etc., a water dish station and poop bags for you to clean up after your pet. We are looking forward to the 'Bark Park' opening soon.

Because of the mandatory water use reduction, please watch your yards. If anything dries out and/or dies, please remove it as soon as you can. Dry plants are a fire hazard and we don't need that kind of problem.

We hope that everyone has their swamp coolers or A/C in good running order so that you are able to use them with all this hot weather. If you do not have a running swamp cooler or A/C and need to cool off, please come down to the clubhouse. Our A/C is on and running well.

Again, my apologies for this very short newsletter. Next month will be much better. See you at the barbecue!
